Vision

Become the leading Engineering, Procurement, and Construction & Commissioning (EPCC) Partner in Indonesia in Energy and Industrial field.

Mission

1. Professional and Reliable Partner for Engineering Services in the Civil, Process, Piping, Mechanical, Instrumentation, and Electrical field for the Energy and Industrial.
2. Offer each Client innovative solutions and on time support services when required.
3. Develop each member of the team to reach their potential.

Project Management and Field Services

- **Project Management**

PTPMI provide outstanding Project Management through an array of services applied to equipment supply, fabrication (steel structure, piping), installation/commissioning, turnkey, and civil work projects and programs from the planning, engineering design, procurement, construction, commissioning, and project close-out for the purpose of achieving project objectives, including the management of quality, cost, time, and resource.

- **Field Services**

PTPMI field teams have the ability to perform all phases (site work, civil, structural, mechanical, instrument and electrical) of field construction, from initial site work to commissioning and start-up. We maintain field supervisory and construction teams that have experience in Civil, Energy, and Industry facilities.

- Construction – Erection Works, Civil Works
- Commissioning – Calibration, Testing
- Manpower Supply – Welding Inspector, Supervisor, Welder, Fitter, Helper

- **Trading**

PTPMI able to supply general product as Customer's Requirements such as Electrical Heat Tracing (EHT) – **Eltherm's Product**, tube and pipe (CS, Alloy, SS, Duplex), pump, valve, pipe expansion joint, welding electrode, site consumables, etc.

Engineering Services

PTPMI capable to performs Engineering Design for Oil & Gas, Power Plant, and Petrochemical Industry, includes:

- Steel Structure Design covers Equipment Support Steel Structure, Ducting, Stack, Piperack, Platforms, Various skid steel structure, and Tower steel structure.
- Civil Design covers Heavy Equipment Foundation Design (Static & Rotating), Building, Bridge, and Port.
- Piping Design covers Piping Material Selection, Pipe Stress Analysis, and Pipe Support Design.
- Pressure Vessel and Tank Design covers Drum, Blowdown, Separator, Storage, and Fire Tube.
- Process Design covers Mass Heat Balance, Process Equipment Selection, and P&ID.
- Electrical and Instrument Design.
- Reserve Engineering with 3D Scanning

Expansion Joint and Flexible Pipe for LNG Mini Gas Station Project, CLIENT PT PAMITRA JAYA KONSTRUKSI, 2018

Project Detail :

1. Supply Expansion Joint and Flexible Pipe for Storage Tank and Pump

QA/QC Engineer Service – Seagull Engineering Sdn. Bhd, Client FORAIN ASIA PACIFIC, 2018

Project Detail :

- 1. Shop Surveillance for Fuel Gas System Packages**
- 2. Monitor and Control Fabricator Progress**
- 3. Review Quality Documents**

Hydraulic Pump and Oil Purifier – Client PT GE OPERATION INDONESIA, 2022

Project Detail :

1. Supply Spare Part of Oil Purifier in Jawa 1 Project
2. Rental Service of Hydraulic Pump in Jawa 1 Project

Fabrication of Pipe Support Steel – Client PT GE OPERATION INDONESIA, 2023
Project Detail :
1. Supply Material and Fabrication of Pipe Support Steel in Tambaklorok 3 Project

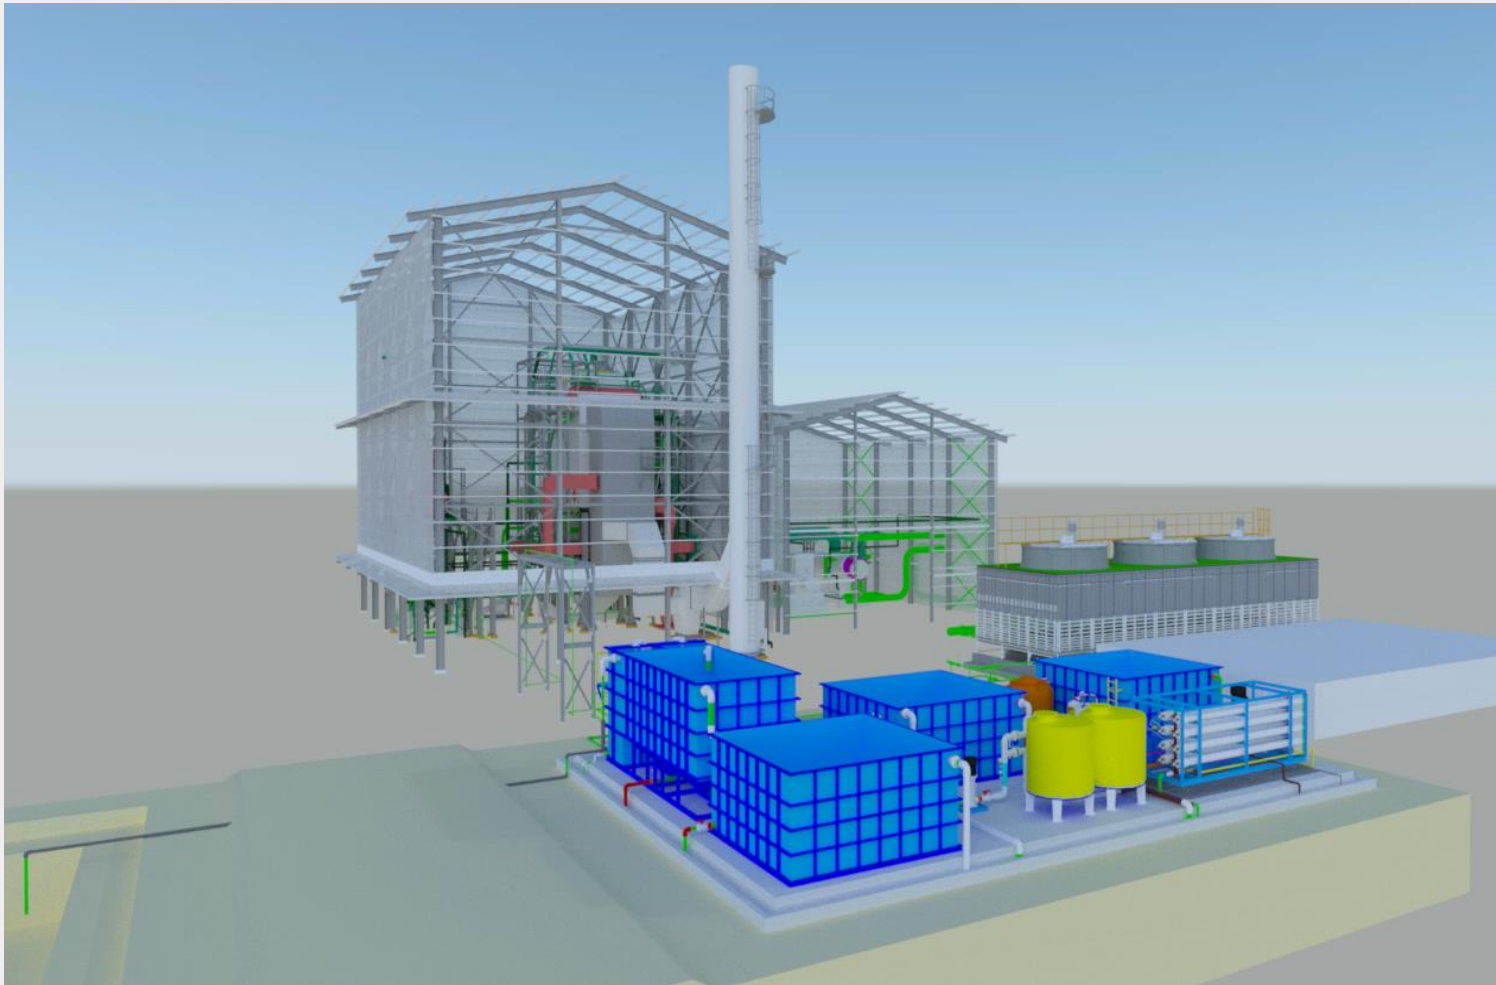

Site Consumables – Client PT Pertamina EP Cepu, 2023

Project Detail :

- 1. Supply Teak Wood for Jimbaran Tiung Biru (JTB) Project**
- 2. Supply Degreaser and Lubricant Penetrating Oil for Jimbaran Tiung Biru (JTB) Project**

Project Reference : Engineering

Merauke Narada Energi Project, CLIENT PT INDONESIAN MARINE, 2018

Project Detail :

- 1. Plant Integrator by 3D arrangement**
- 2. Piping Design for Balance of Plant scope (Pipe Routing/Isometric, Pipe Stress Analysis, and Pipe Support Design)**
