

## ENGINEERING SERVICE

### Capabilities

Engineering Design for Oil & Gas Industry, Power Plant Industry and Petrochemical Industry including:

- Feasibility Study (FS)
- Front End Engineering Design (FEED)
- Detailed Engineering Design (DED)
- Specification and Technical Recommendation
- Bill of Quantity (BoQ)
- Cost Estimation Plan

### Services & Packages

PTPMI capable to perform:

- Civil & Steel Structure Design
- Mechanical & Piping Design
- Pressure Vessel & Tank Design
- Process Design
- Electrical Design
- Instrumentation & Control Design

# Paramesti Mitra Indonesia

*Together as a team with you, we will  
become your long term trusted partner*

# PROJECT MANAGEMENT & FIELD SERVICES

## PROJECT MANAGEMENT

PTPMI provides outstanding Project Management through an array of services applied to equipment supply, installation/commissioning, turnkey, and civil work projects and programs from the planning engineering design, procurement, construction, commissioning, and project close-out for the purpose of achieving project objectives, including the management of quality, cost, time, and resource.

## ABOUT US

Established in 2018, PT Paramesti Mitra Indonesia was built around a core team of experienced Project and Engineering Management with over 15 years of experience in the Oil & Gas and Power Generation Industry.

Fondly known as PTPMI, our strength lies in Engineering, Procurement, Construction, and Commissioning in the field of Civil, Energy, and General Industry.

## VISION

Become the leading Engineering, Procurement, and Construction (EPC) Partner in Indonesia in the field of Civil, Energy and General Industry.

## MISSION

- Professional and Reliable Partner for Engineering Services in the Civil, Mechanical, and Process field for the Energy Industry.
- Offering each client an innovative solutions and on time support services when required.
- Develop each member of the team to reach their potential

## FIELD SERVICES

PTPMI field teams have the ability to perform all phases (site work, civil, structural, mechanical, instrument and electrical) of field construction, from initial site work to commissioning and start-up. We maintain field supervisory and construction teams that have experience in Civil, Energy, and Industry facilities.

- Construction - Erection Works, Civil Works
- Commissioning - Calibration, Testing
- Manpower Supply - Welding Inspector, Supervisor, Welder, Fitter, Helper

## TRADING

PTPMI able to supply general product as Customer's Requirements such as tube and pipe (CS, Alloy, SS, Duplex), pump, valve, pipe expansion joint, welding electrode, site consumables, etc.

We are also the Official Business Partner of **Eltherm GmbH** in Indonesia region focusing on Electrical Heat Tracing (EHT) Product. **Eltherm GmbH** is an international operating company specializing in the field of electrical heat tracing systems.
